

You bought a horse that might be or definitely is a Suffolk? What do you do next?

Decide which situation applies, fill out the form, and contact Zelda. (all fees are USD)

Are any of these your situation?

- 1) This is a horse that has previously been registered.
- 2) The last recorded owner was not the seller.
- 3) The seller will not sign a transfer application.
- 4) You know the registered name, because you were given only the registration certificate.

These fall under the Verification category. Fill out the Application for Registry DNA Search for Verification form. This fee is \$100.00 to verify the DNA matches.

The DNA Verification fee covers the cost of the DNA report and the time to go through our database for a match. If the horse's DNA matches a registered horse, a transfer fee will apply. The duplication certificate fee is required if you do not have the original certificate. Transfer is based on DNA.

Are any of these your situation?

- 1) The horse is believed to be a pure-bred Suffolk.
- 2) At least one parent must be known for the horse. (If no parent is known, see below)
- 3) Or the horse was not registered by the foaling owner prior to sale, and they will not sign paperwork.

This will be the Certification category. Fill out the Application for Registry via DNA Certification. The fee is \$500.00.

This fee covers a search for a match in the database, determining the qualification of the known parent, searching the database for the second parent. If successful, the registration fee is included. NASHA does not guarantee a successful conclusion.

Is this your situation?

- 1) Have a horse believed to be a Suffolk and have no known parent.

Fill out the DNA Certification Parent Information sheet by gathering all the information about this horse that you can. Previous location, previous owner, where you bought the horse. Send the completed form and fee of \$140.00.

This fee covers the time to research first to match the horse, second for one possible parent. If a match is found, the DNA Verification may be completed. If one parent is found, the DNA Certification will apply. The \$140.00 will be deducted from the remaining fee(s).

Are any of these your situation?

- 1) You purchased a horse and were told the registration was pending. It has been over 1 year since the purchase, and you do not have the Registration Certificate.
- 2) You purchased a horse prior to the completion of the registration and have not received any communication from Zelda.
- 3) You are a new Suffolk owner who purchased a horse and still do not have the Registration Certificate. Did you receive a Signature Card from Zelda? We might not have your correct contact information.

Contact Zelda for assistance with any of these situations. If your message is not returned within a week, it could not be understood, please call again!
